An efficient approach for figuring out a price is to send out a survey to your current customers. If these clients have already purchased an book from you, ask for his or her opinion when it comes to price. Do this by making a gross sales page for the new e-book, but don't embody a value on that page. One other technique is to check out prices by creating a number of duplicate sales pages with different prices on each page. Ensure your gross sales copy is strictly the identical on every page,

and contains your selling-handle sentence. Then figure out for each web page the conversion ratio between guests to your web site and gross sales of your book. This can inform you what your optimum value is.
